

WS WIRELESS SOLUTIONS

Bluetooth HEADSETS

Connection without the restriction of wires! Introducing Peltor's new Wireless Solutions headset featuring the latest in **Bluetooth** technology. This headset allows for ultimate flexibility when "synched-up" to your existing communication system, transmit and receive without the need for inter-connecting cords and wires. Features include:

- ▶ **Wireless up to 50 ft.**
- ▶ **Compatible to both portable & mobile 2-way radio systems**
- ▶ **Ground mechanic push-back model available**

WS WIRELESS SOLUTIONS

Bluetooth™ HEADSETS

Unbelievably convenient and easy to use! Within a few seconds of initially synchronizing the headset and adaptor to each other, they are ready to be used as a system. The synchronizing step is required once when first purchased, after which they are linked wirelessly even after being cycled on and off during non-use.

WIRELESS
up to 50 ft. away

digital transmission on 2.45 GHz
frequency hopping at 1600/s
no cross talk with other units in close proximity

Bluetooth™
Adaptor

Bluetooth adaptor plugs onto portable 2-way radios including Motorola, Kenwood, Icom, etc.

Bluetooth adaptor plugs into nose of aircraft for push-back operations

Hi-Viz aviation push-back unit. Replaces current wired push-back system.

Bluetooth adaptor plugs into back of mobile radios including Motorola, Kenwood, Icom, etc. (Assembly required in some mobile radio models)

Rechargeable Ni-MH battery pack kit available, compatible with both headset and adaptor (sold separately) order as 88009-00000
